Gold Certificates.

New York, Oct. 2.—The Times says that the government begins to issue gold certificates to-day, and their appearance in Wall street this evening is similar in status and purpose as the current silver certificates. Their circulation is expected to be much to the advantage of the national treasury department, and many results of interest and consequence in financial circles are expected to follow their issue. The new certificates will simplify business transactions, using them for payments which can be made more readily, more safely and more satisfactorily in many ways than by the use of coin. It is easily handled and easily concealed. The representation of this vast sum will be in consequence in bulk, and \$1,000,000 which in bullion would load down a big four-wheeled truck, may be enclosed in an ordinary envelope and hidden within an inside pocket.

Washington, D. C., Oct. 2.—Four million four hundred thousand dollars of new gold certificates have been sent to New York. They are of the denomination of \$100.

Harmonizing the "Half-Breeds."

New York, Oct. 2.—The Times says that a stalwart member of the state committee has submitted to prominent "half-breeds" a plan to secure harmony in the republican party in the state ticket. The chief features of the plan are that Judge Folger should immediately write a letter declining the nomination tendered him by the convention, basing his declination on the ground that he could by no possibility have anything to do with a nomination tainted by forgery or fraud, and that a new state convention should be at once called for the purpose of placing in the field a suitable candidate for governor. It is believed by those who favor the scheme that Judge Folger, after declining his position in a letter, such as he is capable of writing, would be nominated by the new state convention and thence forward peace and harmony would prevail in the party. It is said that guarantees are offered the "half-breeds" of proper recognition in the convention and on the state committee. It is believed the "half-breeds" will not regard the proposition with favor.

The Mormon Commission.

St. Paul, Oct. 2.—In an interview with General Ramsey, chairman of the Utah commission, who just returned from Salt Lake, he said the only thing he had to do was to separate the polygamists from the lawful voters, and that we accomplished at a very early day after the arrival of the commission. The leading polygamists came and said they desired to assure us that they would not make an attempt to be registered, and that they would do all in their power to assist us in a general way. I think they kept their word, in fact the Mormons conducted themselves fairly so far as we could learn. There had been some talk about delay in the work of the commission, but it must be remembered that an appropriation for the work was not passed by congress until just before the adjournment in August, and we were obliged to await that act. We began work as quickly as we could and we had, besides completing registration, appointed a county register in each of the twenty-four counties in Utah and elected a register for each voting precinct, making about 600 judges. Now, in regard to these appointments, there has been a good deal of nonsense in papers about the commissioners being in favor of the Mormons, while the whole committee were but Mormon residents. As the law intended to make polygamy odious, and don't disfranchise no polygamists Mormon, we could not do otherwise than do just what the law does recognize, so far as elections are concerned. Politics in Utah are not represented in any degree by parties. Republican and democrats but by liberals, composed of the entire anti-Mormon class, and the peoples party. As the Mormon delights to vote, which is at least two and one-half to one gentile, will elect a delegate to congress and polygamists know that their men and offi-

cers will generally be chosen can well afford to acquire in their own disfranchisement. I heard it said the present mayor of Salt Lake, Mr. Kane, stood a good show for the Mormon nomination and election.

What will be the general effect of the law as it pertains to election? It will take pretty nearly all of the first-class and wealthiest men of the Mormon church out of politics and make polygamy odious, especially to the rising generation, who will dislike to be disfranchised on arriving at their majority. Old fellows now thrown out will be looked upon by many as martyrs and, in fact, so consider themselves already. As far as the general effect is concerned, it cannot now be determined what that will be, for it is, of course, an improvement, disfranchising polygamists will certainly deter ambitious young men from too much marrying. The gentle population hope and desire to secure some legislation or commission which shall have full control of the government of the territory, and they claim under such commission everything will be all right. I found the polygamy element located very largely in the rural districts, among the less intelligent classes.

Closing of the Exposition.

Denver, Oct. 2.—Yesterday at least 10,000 people visited the exposition. At half past three Hon. Herman Silver made a brief speech and paid a glowing tribute to the commissioners and exhibitors of all the states and territories, saying that they had done noble work and the management hoped to meet them again next year. He closed by reminding the vast audience that the management were keeping one more promise, and that was to close at the end of the sixty days originally announced, and by thanking the county and city authorities, and all who had lent their aid to the success of the exposition. At the conclusion of Mr. Silver's remarks, the general manager, W. H. H. Loreland, and Mayor Morris stopped the machinery and the Denver Mauecher, rendered in an admirable manner, "The Lord's Own Day."

Mayor Morris delivered the closing address, giving a history of the conception, rise and progress of the exposition, and said that while in agricultural and mechanical exhibits the exhibition had been surpassed in other parts of the world, but for such achievement as a mineral exhibit the like for quantity, variety and value, had never before been gathered under one roof. He then pronounced the exposition closed for 1882.

Prof. Seigle's orchestra then rendered an instrumental selection which was followed by the Denver Mauecher in singing, "My World Is My Song." Another selection by the band and the singing of "Farewell" concluded the exercise.

Beecher on Politics.

New York, Oct. 2.—Mr. Beecher preached this evening on politics, and came out fair and square against the republican state ticket. He said that Governor Cornell had been set aside, not because of vices, but of his virtues. It was the result of sentiments of aversion and revenge. Let Judge Folger be sent home by the natives of the state of New York and you will never see tricks played at Saratoga or repeated in the future conventions of the republican party. I am also opposed to meddling with a general government or with local affairs of this or any other state. The federal government should keep its hands off of local affairs of the state of New York especially. When a chief magistrate selects for his counselors men who would be in the state prison if they had their just deserts, ought a man sit on the board of police in the city of New York who is a notorious receiver of fees and bribe taker, and is it not a shame when the chief magistrate of the nation takes such men to his house and makes them his chief counselors? What are we going to do about it? I answer them; find them out when the ballots are cast and convict. To-day was the thirty-fifth anniversary of Mr. Beecher's connection with the Plymouth church.

Railroad Accident.

Memphis, Tenn., Oct. 2.—The west bound passenger train of the Memphis and Charleston railway met with an accident last night near Madison, Alabama. One passenger coach and a sleeper were thrown from the track. The sleeping car conductor is said to have had his leg broken. Mr. and Mrs. Samuel Tate, of Little Rock, were slightly injured, also Clarence H. Hunt, of this city. The accident was caused by a broken rail.

Lynched.

Charlottesville, Va., Oct. 2.—Jim Rhodes, the murderer of the Mackie family, was taken out of jail last night by a body of armed men and hanged to a tree. He confessed that he was Rhodes, and said that his mother and brother Lee, did not do any of the killing.

Land Decision.

Washington, Oct. 2.—The commissioner of the general land office has, in a letter to W. R. Brown, United States surveyor general, at San Francisco, rendered a decision in the matter of the survey of the ranch of Casimiro Oliverio. He confirms the statement that the claim was twice surveyed in 1890, and that the boundaries were fixed as now patented. It was alleged that the "lines on the northeast and south east" were incorrectly laid down,

and that on the side boundaries should extend one-quarter of a mile further. The land thus claimed includes part of the rancho of Gaadalupe on the south-east of patented rancho; Todas Santos and settled public land on the south-east, and the commissioner decides against the application for resurvey and relocation of the boundary lines, and that any change that can be decided will be to close the public surveys upon lines of the private claim as patented.

Panama's Budget.

Panama, Sept. 24.—At 3:30 a. m., eight slight earthquake shocks were felt in Lusia and in other parts of Peru.

The Chili government has completed an arrangement for selling Peruvian nitrate deposits at public auction.

News comes from Peru of the death of Dr. George Ward at Carro de Pasco. Dr. Ward served as surgeon during the American war, and for many years held a professorship at Yale college. When the late Harry McInnes was constructing the Peruvian railroad, Dr. Ward was called to Peru and given the medical superintendency of the Mollendo, Arequipa, Puno and other works.

Lomen, United States minister to Chili, and family, arrived at Valparaiso on August 13th.

General Maney, late U. S. minister to Bogota, is in Panama, on his way to Lapaz, Bolivia, to relieve General Adams.

Denver News.

Denver, Oct. 2.—Mr. M. R. Mayor, general business manager for Henry E. Abbey, is in Denver, making arrangements for the early appearance of Madame Christian Neilson.

Word has been received here from Littleton that the lifeless body of a man had been found on the prairie near Ames' ranch. No particulars were given and the coroner will go out this afternoon to investigate.

The opening exercises of the Denver Medical college will be held this evening at 8 p. m. in the college building, Sixteenth street. Addresses will be delivered by Dr. Moore, Prof. Wilson and Dr. Hayes.

Hamlin vs. Davis.

Chicago, Oct. 2.—This morning in the Circuit court suit of John Hamlin vs. Wm. J. Davis, which has been on trial for several days, was decided in favor of Hamlin. The latter is proprietor of the Grand opera house of this city. Davis is his business manager.

Manager. Davis, while acting as manager for Hamlin, secured the lease of the building from Boorden, the owner, for ten years from April 16, 1883. Hamlin brought suit to compel Davis to transfer the lease to him. The court decides that Davis shall make the transfer.

Marquis of Lorn.

Victoria, Oct. 2.—A dispatch of Friday says that the marquis and princess left on the Cowan Thursday for New West minster. They were received with a salute from the fort and the canoe Flotilla manned by Indians. On landing the party passed through the principal streets under arches composed of saloon tins and cases decked with heads of deer and huge salmon and sturgeon just from the water, and festooned with nets. The party were received by the mayor and deputation. The party returns to-morrow.

Floater Recovered.

Owero Sound, Oct. 2.—The tug Ann Long arrived here this morning, having on board the following bodies lost off McDougall Purser: A. Spark, Ottawa; Jackson, Clarer, from near Listwell; Mrs. Clesh, Clorhill; Sheppard and one unknown body burned at Killarney. Captain Knothe, of the tug Ann Long, reported a large number of bodies floating around near where the others were picked up and could be easily recovered if a tug with the proper appliances for the purpose was despatched at once.

R. R. Tickets.

Pittsburg, Oct. 2.—In the United States court to-day Judge Irunkley decided that railroad companies must honor its tickets, whoever sells them, and therefore tickets on its face entitles the holder to rights of passenger between points named on the ticket. This opinion reverses the judgement of the lower court.

Folger Accepts.

New York, Oct. 2.—Judge Folger has written a letter accepting the republican nomination for governor.

POLITICAL.

New York, Sept. 2.—Secretary Folger declined to be interviewed to-day, but a gentleman who had been admitted to his rooms stated that he certainly would accept, and that he will write a letter of acceptance at once. His personal platform properly stigmatises the deception practiced in the state convention, and goes before the electors upon the record that he made in public life.

Richmond, Sept. 2.—Private information received here is to the effect that the political riot at Lancaster, S. C., Thursday, was much more serious than represented. It now turns out that several persons were killed and some twenty-one wounded.

TELEGRAPHIC BRIEVITIES.

A Pressburg dispatch says that six hundred Jewish families have left the city on account of the riots.

The application in Utica, New York, for a writ of habeas corpus in the case of Lieutenant Mason has been denied. Secretary Lincoln is at his desk in

the war department to-day. First Assistant Postmaster-General Hutton leaves for Ohio to-morrow.

The amount of silver dollars issued from the mints during the week ending Sept 30th, were 561,499, against 656,963 for the corresponding month of the previous year.

In the three-quarter race at Brighton Beach, Little Katie won, Caramel second and Harry Maum third. Time 1:20. In the mile and one-eighth Edwida was first, Flower of Meath second, and G. W. Yantava third. Time 1:39.

The fever cases in Matamoros are estimated at less than ten and no deaths. Doubtful information received states that there are 300 cases in Monterey since September 18th. A Brownsville, Texas, dispatch says: There are four cases. No deaths here from fever since Saturday.

Some months ago Rev. Josiah Aldridge, (colored) of New York, was sent to the insane asylum upon the certificate of a physician adjudging him a lunatic. The supreme court petitioned for his release on the grounds that he was sane and able to care for himself. The matter was sent to a referee to take testimony.

FOREIGN.

London, Oct. 2.—A number of non-commissioned Indian officers of the Indian regiment in Egypt have been ordered to England, so that the Queen may present them with war medals.

London, Oct. 2.—The fire in the case and military barracks at Enniskillen, England, has been extinguished.

Athens, Oct. 2.—The government, in anticipation of the possible renewal of a complication in regard to the frontier, has ordered that Greek troops on the southern border be reinforced.

London, Oct. 2.—Earl Spencer, lord lieutenant of Ireland, arrived to-day. This is his first visit since the Phoenix Park murder.

Galway, Oct. 2.—A landlord writes the Globe that he believes that the body of Kuddy will be exhumed by the peasant and thrown again into the Lough Mask.

St. Petersburg, Oct. 2.—A large quantity of dynamite has been discovered in a railway truck at Ceef. It is believed to have been shipped by nihilists.

Dublin, Oct. 2.—Archbishop Crooke writes the Freeman's Journal that he is authorized to state that Dillon will not press his resignation of a seat in parliament just now, but continue to represent Tipperary until his constituency has ample time to select a successor in the advent of a continuance of his illness.

Who Owns the Canal?

San Francisco Chronicle.
A few words will explain the relation of England to the Suez Canal, in regard to which there seems to be a general misunderstanding. It is her natural highway to India; hence a greater part of the trade which passes through it belongs to her merchants. In 1876 there passed through the canal 1,395 vessels, measuring 1,501,193 tons. Of these the tonnage was divided among European nations as follows:

English vessels	1,510,198
French	103,345
Dutch	99,651
Italian	60,693
Austrian	27,281
Russian	17,627

That is, of the aggregate of nearly 2,000,000 tons, about three-fourths of it was English. So much for 1876. More than three-fourths of the shipping which passed through the canal between 1870 and 1879 belonged to Great Britain. During the latter year there passed through 11,144 British vessels, 93 of France, 61 of the Netherlands, 51 of Italy, 40 of Austria, 16 of Germany and 25 of Spain. The entire number passing through during the year was 11,477, the remainder being distributed among other nationalities. In 1877 there were 11,651 and in 1878, 11,593, the proportion of tonnage remaining nearly the same.

The direct financial interest of England in the canal is fairly represented by this great preponderance of her commerce. It was built by a French company, under the direction of M. De Lesseps. There are 400,000 shares of the stock. Of this, Beaconsfield bought 76,000, or considerably less than half. In 1875, giving only \$2,976,582, a small proportion of the cost, which has been variously estimated at from \$10,000,000 to \$17,000,000. But as the khedive had in 1869 alienated all these dividends to the French company till 1895, in payment of claims, they are of no present value beyond what they would bring any day in the market. Twelve years must pass before England can cut a coupon from her Egyptian bonds. Meanwhile the income of the portion of the canal which this stock represents will pass to French members of the company, by whom they have been funded under the name "delegations." It has, therefore, been very truthfully said that England not only owns less than one-half the canal, but that her financial interest in it is not more than one-fourth that of France. These figures are official. They may be found in statistical works published in London, and also in recent numbers of the London Times.

Ex-Secretary Evans tells a delightful story at his own expense about a small donkey which he sent up to his country-seat for the use of his children. One of his little daughters, going out with her nurse to admire the animal in its paddock, was sorely distressed when the donkey lifted up its voice and brayed dolefully. "Poor thing! Poor thing!" exclaimed the sympathetic child; but suddenly brightening up, she turned to her nurse and said: "Oh! I am so glad! Papa will be here on Saturday, and then it won't feel so lonely."

TO THE LADIES.

We have just received by express a handsome assortment of Ladies' Fall Suits and wraps, the latest styles, at Rosenwald & Co.'s, on the plaza. 9-19-6t.

Exchange Hotel.

The little parks enclosed by the Exchange hotel are the coolest, shadiest and pleasantest places in Las Vegas to pass a few hours these hot, dusty days. Our rooms and verandas are so cool and shady that guests are sometimes obliged to have fires lighted or go out in the sun to get warmed. This is not a hoax. Travelers should remember this when coming to Las Vegas, and stop only at the Exchange hotel. The house has been thoroughly renovated, and when speaking of our tables we do not take a back seat when compared with any hotel in Las Vegas, and all this for only \$2 per day, or \$8 per week. We never yet went back on our friends and patrons, and are now too old to trifle with our reputation, but will surely make this old Exchange hotel ring with praises from all who favor us with their patronage, in spite of all opposition, and don't you forget it. We passed twenty years of our life in trying to make smooth and safe traveling for the public on the railroads, and now we propose to spend twenty years more in another business—in making the lives of all our guests smooth, pleasant and comfortable. Try us and see. Very respectfully,
A. PAUL CRAWFORD,
Proprietor.
